

Beta Features T&Cs

We are excited to invite you to try new features that are not yet in general release (“Beta Features”). You may accept or decline any such trial at your sole discretion. An important part of this beta process is getting real-world testing of the Beta Features before a general release. If you agree to participate in a beta trial, the following additional terms and conditions will apply to your agreement with dbt Labs:

You agree to use and test the Beta Features and to provide timely feedback, comments, and suggestions (“Feedback”) to our team.

You agree that we shall be free to use, reproduce, disclose, and otherwise exploit any and all such Feedback without compensation or attribution to you.

You acknowledge that Beta Features are for evaluation purposes only and not for production use, are not considered part of the Services under your agreement with dbt Labs, may not receive full support, and are provided “AS IS” with no warranties of any kind whatsoever. Unless otherwise stated, any Beta Feature trial period will expire upon the date that a version of the Beta Feature becomes generally available or we elect to discontinue such Beta Feature at our sole discretion.

We may discontinue Beta Features at any time in our sole discretion with or without notice and may never make them generally available.

WE WILL HAVE NO LIABILITY FOR ANY HARM OR DAMAGE ARISING OUT OF OR IN CONNECTION WITH A BETA FEATURE, AND YOU AGREE THAT YOU WILL USE ANY BETA FEATURE AT YOUR OWN RISK.
